Tom!

This is WONDERFUL news!

We feel so fortunate in our partnership with FCUAC. Having your support and collaboration in the MOU means so much. And the Atlas project - I can't tell you how valuable that has been, is and will continue to be for so many of CARE's projects.

The Picnic in the Park this year - our 2nd annual event - had easily twice the attendance we saw last year. It is fun and informative, and provides a more casual and interactive environment that gives folks an opportunity to ask questions and give input in a way that seems to be more comfortable for more people than some of our other events. We hope to continue to grow it over time, and contributions like this one make that hope achievable.

I will get receipts to you very soon.

Thank you all for the great work that you do for all of us, and for your most generous support!
Gwendolyn High

Gwen

Last night the Four Creeks Unincorporated Area Council voted to reimburse CARE for up to \$200 in expenses for your recent picnic at Coalfield Park.

We are proud to be a partner with CARE in the Stewardship Memo of Understanding that covers Tributary 291, Coalfield Park, and 164th.

You're efforts align perfectly with the FCUAC mission of enhancing opportunities for residents to participate in decisions that affect the future of their communities and to improve access to the information and services provided by public agencies, King County Parks in this case.

We are also pleased to have contributed to CARE by providing maps via the FCUAC Atlas Program.

Reimbursement requests can be sent to Rich Nelson, FCUAC Treasurer. A copy of receipt(s) related to the Coalfield Park event are all that's needed.

Any further question can be answered by Rich.

Thanks for all that you do.

Tom Carpenter
Communication Secretary
