| | 8 | Dick Fackenthall | | | |
| | 9 | Vacant | | | |
| Present | 10 | Vernon Redecker | | | |

Volunteer to take notes on meeting tonight, Edie J.

Guests present- Roger Paulsen, citizen active in the pending development activity affecting a three-way stop on 156th/154th corridor.. Ronda Bryan and Debi Eberle, CARE members.

Public Comment:

Program: Roger Paulsen provided an overview of the development proposed near the "three-way stop" intersection and the traffic analyses/required and/or completed as part of the permitting for new building and street access to 156th. Tom C. noted that this development is part of, or should be part of the vision for this entire corridor. It has become the I-405 alternate route for commuters working to avoid the back-ups of traffic coming in from the Maple Valley area on SR 169. The Renton City Council is taking limited input on these issues.

Other business and reports

National Night Out planning: IPete, Debi and Alyssa reported that it's proceeding fairly well. Discussion of advertising and signage occurred. A cash donation from the IdaNalia Blockwatch was transmitted to Tom for deposit in the NNO account.

Community meeting: Debi Eberle invited all to attend the June 23 CARE meeting with King County representatives (Claire Jonson, Sr. Engineer of Stormwater Services) to hear about the progress on the project of bio-swales being engineered for building near the Cemetery Pond.

Meeting adjourned at 8:28.
