

Water Program

Project Document

SUMMARY

WEB

- FCUAC [Water Program](#)
- FCUAC [Atlas Program](#)

STEWARDSHIP MEMO OF UNDERSTANDING (MOU)

- Addendum

KITS

- Purchase 3
- Document all work (e.g. sources, prices, restock requirements/frequency)
- Binder (from KCD kits)

SITE SELECTION

Rules

- Public access

Issaquah Creek

- Middle Issaquah Creek Natural Area
- 23900 block of SE 156th St
- Major: 222306
- Minor: 9122, 9015, 9174, 9016, 9076, 9077
- 223069122 = 23731 SE 156th St

May Creek

- 2-3 sites on Tributary 291A
- May Valley at Celegoy and Walker properties

GIS SUPPORT

- FCUAC Atlas will provide GIS services
- GIS analysis (Alicia)
- Maps and their access
- With KCGIS, correct the stream line data (May Creek and Tibbetts Creek near summit)

- Integrate monitoring data (local, county, state)

PARTIES

- FCUAC
- CARE/SWAN
- King County DNRP
- King Conservation District (KCD)
- Issaquah Environmental Council (IEC)

VOLUNTEERS

- Data gathering
- Training
 - KCD to start
 - Ask KCD if they will come out for the first samplings

SCHOOLS

- Student involvement

FUNDING

- 2015 CSA grant for kit
- Recommend buying second kit in anticipation of a 2016 CSA grant
- Recommended buying a third kit. Initial funding by FCUAC.
- Possible funds from IEC.
- Don't want financing to be a pacing factor.

STEWARDSHIP RULES

- Swing pendulum back to empowering stewards and reducing rules (mostly applies to May Valley history)

DATA

- King County
- Other (e.g. State, Federal)

VISIONS

- Comprehensive, cooperative basin stewardship for the May Creek and Issaquah Creek Basins.
- Trusted and empowered local stewardship
- Efficient and effective decisions driven by timely and accurate. (e.g. sample, flows, GIS)

RISKS

- Insurance requirements?

LOG

- FCUAC meeting program kickoff (1/20/16)
- CARE/SWAN meeting program kickoff (1/25/16)
