

Stream Steward Boise Creek E. coli Sampling Sites

Site #20 **Headwaters along SR410**

Park on south side of SR410 immediately east of the bridge railing, after “Chains Required in Winter” sign. You will have a view of the quarry northeast of you. Walk along trail back towards bridge and turn left down a path leading to a boulder.

Site #19 **South Tributary of Boise Creek**

On 284th Ave SE (close to intersection with SE 472nd St). Test on east side of 284th Ave in the ditch where blackberries grow.

Site #15 **Watson St and SE 456th St**

On the west side of Watson St towards Jewel St development.

Sites #11 and #12 **Near Warner Ave and SR410**

Park at the Foothills Trail parking lot. Walk east along Warner Ave and turn left into Mountain Meadows Mobile Home Community. The first house to the left is the “office”. A trail with a gate that says “Welcome” leads to a path along the tributary. Walk along the path until you walk across a tributary. Site #11 is the tributary coming from the trailer park, through the culvert. Site #12 runs parallel to the foothills trail, among the blackberry.

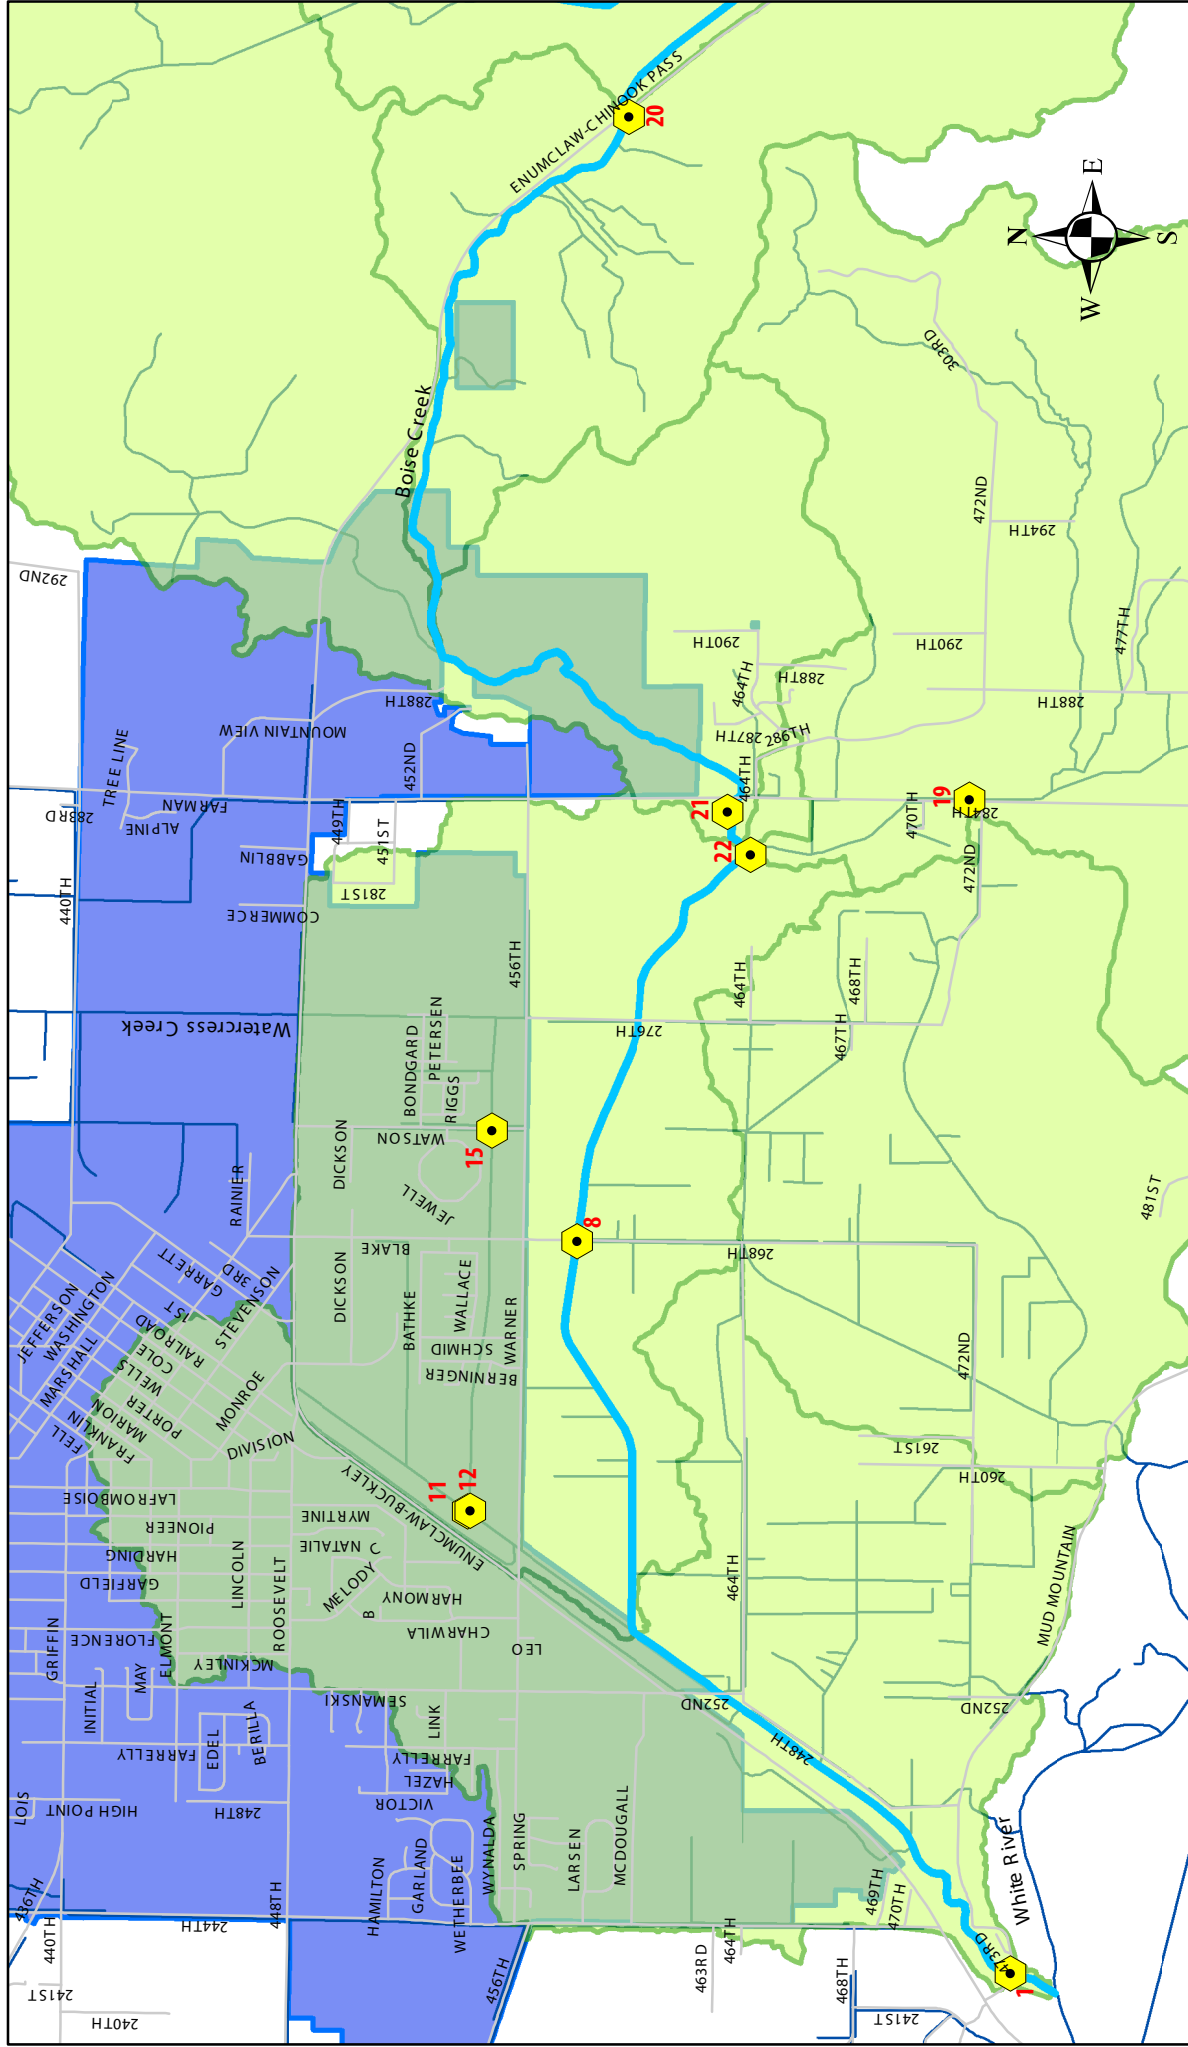

Site #8 **268th Ave SE, south of SE 456th St**

Park on the west side of 268th Ave SE, just south of the bridge, do not block the driveway and park near, but not blocking, the fire hydrant. Cross the street and test by bridge, on east side by the metal fence.

Site #1 **Mouth of Boise Creek**

From Wastewater Treatment Plant, take SR410 west towards Buckley and turn left on SE Mud Mountain Rd. Park on the right, before the bridge. Walk down the path and take the first trail on the left down to the water.
