

## **8/16/06 UAC**

Parks: UAC was approached by constituents who had been stopped from soliciting signatures on park lands and threatened with legal action including arrest. The State Supreme Court ruled some time ago that these lands, along with other areas like ferries, are public spaces and solicitation is appropriate.

Rural Van: What is it that the advocates want the UAC to do? If it is to collect constituent input then bring money because that is not the normal role of the UAC. In no way should the comments made by UAC members be interpreted as justification for spending the money necessary to provide the service.

Reassign Grant and Bette

Propose a strategic planning effort by the officers to decide whether building a strategic plan is desired or appropriate to the council's culture or bylaws.
